A Third Window Natural Life

Ulanowicz presents the case for a third window, or frame, to view nature: process ecology, which is far better suited to the reality of complex living systems. Based on his 30+ years of researching ecosystem dynamics, he points out that they violate "each and everyone of the Newtonian presuppositions."

A Third Window: Natural Life beyond Newton and Darwin ...

A Third Window: Natural Life beyond Newton and Darwin. by. Robert E. Ulanowicz, Stuart A. Kauffman (Foreword) 4.43 · Rating details · 23 ratings · 3 reviews. Thus far, the dominant paradigms through which modern scientists have viewed nature have been structured primarily around Newtonian and Darwinian approaches.

A Third Window: Natural Life beyond Newton and Darwin by ...

Chance and disarray in natural processes are shown to be necessary conditions for real change. Randomness is shown to contribute richness and autonomy to the natural world. The metaphysical implications of these new axioms will lend A Third Window a wide appeal not only among scientists, but also among philosophers, theologians, and general readers who follow the science and religion dialogue.

A Third Window: Natural Life beyond Newton and Darwin ...

Hence, Ulanowicz offers his titular "third window"-a new way of understanding evolution and other natural processes beyond the common mechanistic or materialistic philosophies of nature. Drawing on the writings of Walter Elsasser, Karl Popper, Gregory Bateson, Robert Rosen, and Alfred North Whitehead, as well as his own experience as a theoretical ecologist, Ulanowicz offers a new set of axioms for how nature behaves.
