Publications | AIAA

In 2013, U.S. federal agencies with annual R&D budgets in excess of \$100 million were tasked by the White House's Office of Science and Technology Policy (OSTP) to develop public (open) access plans so that journal articles and digital data resulting from U.S. federally funded research will be freely available to the public within one year of publication.

Open Access | AIAA

Impact Factor is one of several quantitative tools generated for journals using Thomson Reuters' Journal Citation Reports (JCR). The impact factor of a journal is calculated by dividing the number of current-year citations to the articles published in that journal during the previous two years.
