AT command set - All About Symbian Forums

The character set used for strings in AT commands is controlled by AT+CSCS. The default value is "GSM" which is not capable of displaying anything outside a relative limited set of characters. In your case, to read Arabic or Chinese "UTF-8" is probably the best choice, although "UCS-2" also can be used (will require a little post processing though).

using AT commands. of service in response encoding and ...

I tried to send AT-commands to my 3310, but got no response. I looked at Nokia's Home-page, and found that on their M2M module -Nokia 12, you must connect a 68Kohm pull-down-resistor to BSI(pin 37) to set it in AT-Command mode. I do not know if this has to be done inside the 3310, or if it can accept AT commands at all. Bryce Norwood - NowSMS ...
