Hewlett-Packard makes a wide variety of printers that can be used for a number of different purposes. They can be used to print quality pictures, scan items, copy documents and print text and images in black or in color. If you find that your printer will not properly print in color, the problem may be as simple as the color cartridge is out of ink.

### A HP Printer Won't Print in Color | Techwalla

If you wish to print in color, make sure that Color is selected from this menu. Click OK. 4. Back on the main print screen, click the Print button. The CTS dialog box "Print Job Notification" appears. Verify one last time that you've selected the color printer, then click Print. You're good to go!

When you print a color PDF, all of the colors used in the file print on one plate. This process is called composite printing. The options available in the Output panel of the Advanced Print Setup dialog box depend on the selected printer.. Artwork that will be commercially reproduced and that contains more than a single color must be printed on separate master plates, one for each color.
