Gas separators play a
significant role on the
operation of circulating
bubble columns
(CBCs), and affect the
system hydrodynamics
of gas hold-up and the
liquid circulation.

answers that bariatric
surgeries is not done
with traditional open
surgery, but is done by
laparoscopy. It
provides many
advantages for the
obese patient, the
most important of
which is the lack of
pain due to the
completion of the
operation through very
small surgical
openings.
