Introduction To Metaphysics Martin Heidegger

Introduction to Metaphysics is a 1953 book about metaphysics by the philosopher Martin Heidegger. The work is a revised and edited lecture course Heidegger gave in the summer of 1935 at the University of Freiburg. The work is famous for Heidegger's reinterpretation of Greek thought, but has been widely regarded as fascist in character.

Introduction to Metaphysics (Heidegger book) - Wikipedia

Heidegger's Introduction to Metaphysics is one of the most important works written by this towering figure in twentieth-century philosophy. It includes a powerful reinterpretation of Greek thought, a sweeping vision of Western history, and a glimpse of the reasons behind Heidegger's support of the Nazi Party in the 1930s.

bobcarp.files.wordpress.com

For Heidegger, an introduction such as his "Introduction into Metaphysics" from 1935 or "Getting to the Bottom of Metaphysics" has pedagogical significance, but like the introduction in a piece of classical music, it is designed to bring the listener into the world of the main theme. It serves to set the mood for

Heidegger What Is Metaphysics Translation GROTH

(a) In doing metaphysics Heidegger says we are seeking the essence or ground of what-is. The essence/ground will be common to everything, and so true of all things; in that sense, Heidegger is Aristotelian.

(1) Martin Heidegger, the most poetic and controversial philosopher of the 20th century, cuts straight to the heart of the matter with this very question. The heart of metaphysics is its very ability to question the extra-ordinary - a questioning that is entirely impractical, for "You can't do anything with philosophy" (13).
