The PMBOK Guide is intended to be a "subset of the project management body of knowledge that is generally recognized as a good practice. 'Generally recognized' means the knowledge and practices described are applicable to most projects most of the time and there is a consensus about their value and usefulness.

### **Project Management Body of Knowledge - Wikipedia**

Knowledge areas are grouped according to the skill required to manage that particular process. Moreover, there is no relationship between knowledge area and process group. Summary. The PMI has organized the PMBOK Guide according to the knowledge areas to ease the process of acquiring the skills.

### **Process Group and Knowledge Area in the PMBOK Guide | PM ...**

PMBOK® Guide would seem to have the upper hand in this knowledge area because the artifacts and processes generated through Project Integration, Scope and Time Management are all inputs into project costing and budgeting. Moreover, many IT projects are 'fixed price', but according to Poppendieck & Poppendieck (2003, p 171) such contracts encourage self-serving behavior by the customer and defensive behavior by the vendor.
